SUMMARY

I'm an experienced front-end web developer with expertise in ReactJS, SASS/SCSS, HTML5, and JavaScript. I prioritize delivering high-quality, accessible, and responsive software while continuously exploring new technologies. As a collaborative team player, I excel in translating project requirements into efficient and user-centric solutions while remaining passionate about staying abreast of emerging technologies and driving innovation in software development.

EDUCATION

SRM Institute of Science and Technology, Chennai

WORK EXPERIENCE

Specialist | Credera

Jul 2021 - present

- Collaborated on General Motors' project to revamp websites and develop marketing campaign templates.
- Transformed Novartis' heritage site to Drupal using ReactJS, HTML5, SCSS/SASS, and JavaScript. This integration enhanced backend usability and significantly improved site performance and functionality. Consequently, user engagement increased, leading to a 30% boost in business success.
- Enhanced the corporate website i.e [TA Digital](#) by implementing numerous accessibility enhancements and integrating user-friendly UI components. Leveraged HTML, SCSS, jQuery, and Drupal backend to introduce additional features, resulting in an enriched user experience and improved site functionality.
- Contributed to the development of a web application with a mobile-first approach for desk bookings within office spaces. Leveraged ReactJS, Express, MongoDB, and Node.js to deliver a seamless user experience. Played an integral role in creating a robust and scalable solution, enhancing workplace efficiency and productivity
- Gained practical expertise in HTML, CSS, and JavaScript during training, while concurrently serving as a Quality Assurance resource. Developed a comprehensive understanding of QA processes to proactively identify and address issues, effectively minimizing reworks and optimizing project efficiency.

PERSONAL PROJECTS

Store Locator | Geolocation API, Mapbox, HTML, CSS, Javascript

- Displayed nearby stores on a map using geographical coordinates and shortest route mapping.

CERTIFICATION

- Information Security Certified Professional
- Front-End Web Development With React/ Coursera
- Front-End Web Developer Certification/ W3CX
